

Postmaster Palmer

of So. Glen Falls, N. Y., describes a condition which thousands of men and women find identical with theirs. Read what he says, and note the similarity of your own case. Write to him, enclosing stamped addressed envelope for reply, and get a personal corroboration of what is here given. He says regarding

L. D. Palmer.

Dr. Miles' Heart Cure:

"I suffered agonizing pain in the left breast and between my shoulders from heart trouble. My heart would palpitate, flutter, then skip beats, until I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began taking Dr. Miles' Heart Cure, but it helped me from the first. Later I took Dr. Miles' Nervine with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial."

AN EARLY THOUGHT FOR THE SUMMER COTTAGE.

It is not too early to turn one's thoughts to the furnishings of the Summer home, especially if it is proposed to decorate it with artistic needlework. The January DELINEATOR offers suggestions that may be developed by individual ingenuity until every available piece of furniture about the place is rejuvenated. The designs are shown in colors and black and white, and the stitches and materials described in detail.

Frozen to Death.

Saturday night two or three negroes from the country came to town, got drunk and at a late hour started for home out the Colby pike. One of them, Ed. Wesley, or "Black Annie," as he was generally known, aged about twenty years, was overcome by the combined effect of cold and whisky, and the next morning was found frozen to death near the residence of S. P. Hodgkin. Coroner Willis held an inquest without a jury and returned a verdict in accordance with the facts.—Winchester Democrat.

Get the Almanac that Predicted the Galveston Storm.

The Ladies' Birthday Almanac for 1902 is being distributed in our city this week. This publication achieved great prominence in September by its accurate prediction of the Galveston storm. The New York Times Sept. 13th, said: "Galveston's disastrous storm was predicted with startling accuracy by the weather prophet, Andrew Jackson DeVoe, in the Ladies' Birthday Almanac issued in Chattanooga, Tenn., last January." It is so different from the ordinary cheap patent medicine almanac, that it has become very popular, and now has a circulation of 15,000,000 copies, annually. Our readers who have not received a copy of the 1902 edition, can get it from their merchant or by sending their address to the Ladies' Birthday Almanac, Chattanooga, Tenn.

Sensible old Bill Arp of Georgia condemns the higher education of the negro. He thinks the race needs moral training more than book learning. He says: "All this maudlin philanthropy has come from the idea that our negroes were savages until freedom came, when the truth is they were better fed and clothed and housed and far happier than the poor of the northern states."

THE NEW SKIRTS.

Form-fitting skirts are evidently not a fancy of the moment but have come to stay. The upper portion fits without a wrinkle and is drawn back by elastic straps, while the flounce at the bottom flares very noticeably. The making of these form-fitting or serpentine skirts is described in detail in the January DELINEATOR by Mrs. A. L. Gorman, a number of illustrations being given of the different steps in the work.

Representative Gibson, of Tennessee, has introduced a bill for the relief of the tobacco growers, providing that it shall be lawful for any farmer to sell tobacco in the hand or in the leaf, or hand twisted, or hand pressed, of his own raising, without obtaining any license therefor or complying with any other of the laws and regulations in reference to the sale or manufacture of tobacco.

A deaf husband and a blind wife make a happy couple.

Chicago today is a city of nearly 2,000,000 inhabitants. Do you know what these figures mean? They mean that within the borders of the municipality are more people than live in either the state of Georgia or Minnesota, or New Jersey, or Virginia, or Wisconsin. They mean that there are gathered together more people than occupy Alaska, Arizona, Colorado, Delaware, Idaho, Maine and Oregon combined. New York is double the size of Chicago.

Rev Irl Hicks Not Dead.

Notwithstanding a widely current rumor that the Rev. Irl R. Hicks was dead, he never was in better health, and never did a harder and more successful year's work than that just closing. He has just completed his large and splendid Almanac for 1902 and, with his staff of able helpers, has brought his journal, World And Works, justly forward into international reputation. For a quarter of a century Mr. Hicks has grown in reputation and usefulness as the people's astronomer, and forecaster of storms and the character of the coming seasons. Never were his weather forecasts so sought after as now, his timely warning of a serious drouth this year having saved the people from loss and suffering. Millions of bushels of wheat were harvested through his advice to plant crops that would mature early. The American people will certainly stand by Prof. Hicks, when it costs them so little and so great are the benefits. His fine Almanac of 200 pages is only 25c and his splendid family journal is only one dollar a year including the Almanac. Send to World and Works Pub. Co., 2201 Locust St., St. Louis, Mo.
